

Quality and Environmental Policy

LK Pex develops, manufactures and sells high-quality plastic pipes for the heating and plumbing industry.

Our goal is to always provide high-quality, high performance pipe products. We increase our competitiveness by focusing on continuous improvement of our products, processes and business systems with respect to quality as well as environmental impact and sustainability. We shall meet or exceed our customers' expectations, fulfil requirements applicable to our business as well as be responsive to the needs of other interested parties. Our employees are our greatest asset in achieving our objectives and we continuously develop the skills of our organization.

In all of our business, we strive to reduce our environmental footprint by selecting and using our resources in an efficient and sustainable manner.

A handwritten signature in blue ink, appearing to read 'Fredrik Simonsson', with a long horizontal flourish extending to the right.
